Mountain View Credit Union has been in operation since 1977. It is a full fledged financial institution operating in 11 rural communities located throughout Central Alberta. In 2004, the Delia Branch was opened and Mountain View Credit Union operated out of a mobile facility. In 2006, land was purchased for the construction of a new building to house the Delia Branch and completion of that project occurred in 2008. Mountain View Credit Union is a co-operative which makes it unique from other financial institutions in that we return profits back to the members who also happen to own the Credit Union.

Mountain View Credit Union offers numerous services on Personal, Agricultural and Business levels. We would be pleased to meet you and serve your needs.
