

My family moved to Delia in 1952 where they and the Larkin family operated the General Motors and Massey Harris dealership. I went to school in Delia and in 1964 left to "see the world". It was a short trip and in 1966 I married Donna. We have two children Michael and Kristy. Michael is married to Kim and they have two children. I have worked in a variety of areas however spent most of my career in the transportation industry where I operated a small trucking company for many years. I was involved in the political world while in Granum, AB as a school trustee and board chairman for 8 years. My municipal government experience includes a town councillor position in Claresholm for 1 term. Donna and I moved to California in 1991 where she managed a Hospice district office and I continued with the trucking company. We semi retired in 2003 and returned to Canada and home to Delia in 2004. I held the Mayor position of Delia 2007-2011. I did see a small part of the world but really everything we value and need -small town living and great friends- are all right here in DELIA.
